

FILE DELIVERY

INDICATIONS FOR PREPRESS FILE DELIVERY

Files are to be delivered preferably in Adobe Indesign, Adobe Illustrator or Quark Xpress

All fonts used in the document should be included

Images supplied in tiff, eps, dcs, jpg or psd should all have the same encoding

Images should be delivered in CMYK with colour profile assigned and declared

Images should be 300dpi minimum resolution; line drawings/eps should have a minimum resolution of 1200dpi

Any Pantone colours used should be clearly specified and the naming of colours must be homogeneous throughout the document

ISO Certified colour proofs must be delivered along with the files
